Contents

VOLUME 13, NUMBER 1, MARCH 1988

M. V. BRIAN: The control of *Myrmica rubra* workers by queens of their own and other *Myrmica* species and the interaction between queenless groups of workers 1–7

BEATRICE CARDONE and JAMES H. FULLARD: Auditory characteristics and sexual dimorphism in the gypsy moth 9–14

WILLIAM E. CONNER and BARBARA A. BEST: Biomechanics of the release of sex pheromone in moths: effects of body posture on local airflow 15–20

J. F. DALE and S.S. TOBE: Effect of high potassium concentrations on juvenile hormone release *in vitro* from corpora allata of *Locusta migratoria* 21–27

GARBRIELLA GIBSON and JOHN BRADY: Flight behaviour of tsetse flies in host odour plumes: the initial response to leaving or entering odour 29–42

M. GOKULDAS, P. A. HUNT and D. J. CANDY: The inhibition of lipid synthesis *in vitro* in the locust, *Schistocerca gregaria,* by factors from the corpora cardiaca 43–48

MARTIN J. R. HALL: Characterization of the sexual responses of male tsetse flies, *Glossina morsitans morsitans,* to pheromone-baited decoy 'females' in the field 49–58

C. E. LINN, M. G. CAMPBELL and W. L. ROELOFS: Temperature modulation of behavioural thresholds controlling male moth sex pheromone response specificity 59–67

M.-A. LIU, G. L. JONES, J. G. STOFFOLANO, Jr and C.-M. YIN: Conditions for estimation of corpus allatum activity in the blowfly, *Phormia regina, in vitro* 69–79

ISAMU SHIMIZU and KOU HASEGAWA: Photoperiodic induction of diapause in the silkworm, *Bombyx mori*: location of the photoreceptor using a chemiluminescent paint 81–88

J. F. STOUT, C. H. DEHAAN, J. C. HALL and M. RHODES: Processing of calling songs by an L-shaped neuron in the prothoracic ganglion of the female cricket, *Acheta domesticus* 89–101

RICHARD WALL: Analysis of the mating activity of male tsetse flies *Glossina m.morsitans* and *G. pallidipes* in the laboratory 103–110

GOTTFRIED WIEDENMANN: Circadian timing of cricket calling song: a clock persisting from nymphs to adults 111–119

VOLUME 13, NUMBER 2, JUNE 1988

OLLE ANDERBRANT: Survival of parent and brood adult bark beetles, *Ips typographus,* in relation to size, lipid content and re-emergence of emergence day 121–129

ELIZABETH A. BERNAYS and JEREMY C. LEE: Food aversion learning in the polyphagous grasshopper *Schistocerca americana* 131–137

LOUIS B. BJOSTAD: Insect electroantennogram responses to semiochemicals recorded with an inexpensive personal computer 139–145

W. T. CATTON: Discharge patterns of locust visual interneurones 147–152

D. J. FAIRBAIRN and J. BRASSARD: Dispersion and spatial orientation of *Gerris remigis* in response to water current: a comparison of pre- and post-diapause adults 153–164

PAUL G. FIELDS and JEREMY N. McNEIL: The importance of seasonal variation in hair coloration for thermoregulation of *Ctenucha virginica* larvae (Lepidoptera: Arctiidae) 165–175

D. J. FAIRBAIRN and J. BRASSARD: Dispersion and spatial orientation of *Gerris remigis* in response to water current: a comparison of pre- and post-diapause adults 153–164

PAUL G. FIELDS and JEREMY N. McNEIL: The importance of seasonal variation in hair coloration for thermoregulation of *Ctenucha virginica* larvae (Lepidoptera: Arctiidae) 165–175

CAROLE T. LUDLUM and KLAUS-PETER SIEBER: Effects of azadirachtin on oogenesis in *Aedes aegypti* 177–184

D. NAMMOUR, J. HUIGNARD and J. POUZAT: A female sex pheromone in *Bruchidius atrolineatus* (Pic) (Coleptera, Bruchidae): analysis of the factors affecting production or emission of this pheromone 185–192

SHOHKO OBATA: Mating refusal and its significance in females of the ladybird beetle, *Harmonia axyridis* 193–199

BRADFORD G. RENCE, MARK T. LISY, BRIAN R. GARVES and BRIAN J. QUINLAN: The role of ocelli in circadian singing rhythms of crickets 201–212

JOSEPH P. RIETH and MARSHALL D. LEVIN: The repellent effect of two pyrethroid insecticides on the honey bee 213–218

PETER ROESSINGH, STEVEN C. PETERSON and T. D. FITZGERALD: The sensory basis of trail following in some lepidopterous larvae: contact chemoreception 219–224

S. J. SIMPSON, M. S. J. SIMMONDS and W. M. BLANEY: A comparison of dietary selection behaviour in larval *Locusta migratoria* and *Spodoptera littoralis* 225–238

SEIJI TANAKA, HENK WOLDA and DAVID L. DENLINGER: Group size effects the metabolic rate of a tropical beetle 239–241

VOLUME 13, NUMBER 3, SEPTEMBER 1988

P. J. ALBERT and S. PARISELLA: Physiology of a sucrose-sensitive cell on the galea of the eastern spruce budworm larva, *Choristoneura fumiferana* 243–247

MAHMOUD FADL ALI, ATHULA B. ATTGALLE, JOHAN P. J. BILLEN, BRIAN D. JACKSON and E. DAVID MORGAN: Change of Dufour gland contents with age of workers of *Formica sanguinea* (Hymenoptera: Formicidae) 249–255

MAHMOUD FADL ALI, E. DAVID MORGAN, CLAIRE DETRAIN and ATHULA B. ATTYGALLE: Identification of a component of the trail pheromone of the ant *Pheidole pallidula* (Hymenoptera: Formicidae) 257–265

DAVID N. BYRNE and NEIL F. HADLEY: Particulate surface waxes of whiteflies: morphology, composition and waxing behaviour 267–276

C. T. DAVID and JIM HARDIE: The visual responses of free-flying summer and autumn forms of the black bean aphid, *Aphis fabae*, in an automated flight chamber 277–284

GORDON GRIGG, PETER JACKYLN and LAURIE TAPLIN: The effects of buried magnets on colonies of *Amitermes* spp. building magnetic mounds in northern Australia 285–289

JEREMY C. LEE and ELIZABETH A. BERNAYS: Declining acceptability of a food plant for the polyphagous grasshopper *Schistocerca americana*: the role of food aversion learning 291–301

W. A. TIMMINS, K. BELLWARD, A. J. STAMP and S. E. REYNOLDS: Food intake, conversion efficiency, and feeding behaviour of tobacco hornworm caterpillars given artificial diet of varying nutrient and water content 303–314

S. J. TORR: The activation of resting tsetse flies (*Glossina*) in response to visual and olfactory stimuli in the field 315–325

WALTER R. TSCHINKEL: Social control of egg-laying rate in queens of the fire ant, *Solenopsis invicta* 327–350

J. M. ZANKER: On the mechanism of speed and altitude control in *Drosophila melanogaster* 351–361

BOOK NOTICES 248, 256

VOLUME 13, NUMBER 4, DECEMBER 1988

WINSTON J. BAILEY and PAUL B. YEOH: Female phonotaxis and frequency discrimination in the bushcricket *Requena verticalis* 363–372

J. CASAS: Analysis of searching movements of a leafminer parasitoid in a structured environment 373–380

G. M. COAST: Fluid secretion by single isolated Malpighian tubules of the house cricket, *Acheta domesticus*, and their response to diuretic hormone 381–391

MARCEL DICKE and PETER A. BURROUGH: Using fractal dimensions for characterizing tortuosity of animal trails 393–398

MICHAEL B. DIMOCK and WARD M. TINGEY: Host acceptance behaviour of Colorado potato beetle larvae influenced by potato glandular trichomes 399–406

J. S. DONALDSON and G. H. WALTER: Effects of egg availability and egg maturity on the ovipositional activity of the parasitic wasp, *Coccophagus atratus* 407–417

R. GALUN and J. P. KABAYO: Gorging response of *Glossina palpalis palpalis* to ATP analogues 419–423

S. KIKUKAWA, S. S. TOBE and B. STAY: Modulation of juvenile hormone release and oocyte growth following (*RS*)-hydroprene treatment in virgin female *Diploptera punctata* 425–432

STUART B. KRASNOFF and DAVID D. YAGER: Acoustic response to a pheromonal cue in the arctiid moth *Pyrrharctia isabella* 433–440

ARI J. RIIHIMAA and MASAHITO T. KIMURA: A mutant strain of *Chymomyza costata* (Diptera: Drosophilidae) insensitive to diapause-inducing action of photoperiod 441–445

HAYWARD G. SPANGLER: Hearing in tiger beetles (Cicindelidae) 447–452

S. J. TORR: The flight and landing of tsetse (*Glossina*) in response to components of host odour in the field 453–465

S. J. TORR: Behaviour of tsetse flies (*Glossina*) in host odour plumes in the field 467–478

RICHARD WALL: Tsetse mating behaviour: effects of age and hunger in *Glossina morsitans morsitans* and *G.pallidipes* 479–486
